

Intl FTW Turning Teal
"Widgeon"

DOB: May 28, 2004

Weight: 65 lbs.

Imported, 2008

Widgeon holds field trial awards in two countries achieved separately under the British and Irish Kennel Clubs. He has both novice wins and open trial awards with 2 second places in open stakes:

A driven pheasant trial, Midland Retriever Club

A walk up duck and snipe trial, Ilodagh Valley Gundog Club

Most of his trial awards were achieved on driven pheasant shoots. He qualified and competed in the 2007 Irish Retriever Championship.

Widgeon is half brother to FTAW Astraglen Caster, "Ben." His sire is an International Field Trial Champion, 5-time qualifier for the British Championship. He earned two certificate of merits in the British Championship in 2003 and 2005. Rocket was the winner of the Irish Championship in 2003.

Widgeon was trained and hunted mainly on duck and snipe on the mountains of Slieve Gullion, Jonesboro, Northern Ireland. While at Wildrose, Widgeon has proven to be an exceptional game dog on duck, pheasant, and pigeon. He is also a great trekking dog in our Adventure Dog Program. His pups are proven hunters; some are making exceptional service dogs for our Diabetic Alert Dog Program.

Widgeon is an excellent traveler and a calm companion, yet he's a stylish, hard-driving hunter with a most biddable, kind temperament... **a classic Gentleman's gundog.**
